

# VIKING 22-65R HYBRID GRAIN SORGHUM

MEDIUM-EARLY HYBRID WITH EXCELLENT YIELD POTENTIAL

**PERFORMANCE.  
VALUE.  
SIMPLICITY.**

800.352.5247  
alseed.com

- Medium-early maturity red grain sorghum with excellent yield potential
- Semi-open panicle and good head exertion allows for great threshability
- Excellent leaf quality and resistance to drought and disease
- Good for late planting, double cropping, and dry land practices
- Stiff stalk and strong, deep root system
- Large grain size

## AGRONOMICS

<b>Uniformity:</b>	5
<b>Seedling Vigor:</b>	5
<b>Drought Tolerance:</b>	5
<b>Lodging Resistance:</b>	5
<b>Threshability:</b>	5

## DISEASE TOLERANCE

<b>Anthrachnose:</b>	5
<b>Sugar Cane Aphid:</b>	4
<b>Maize Dwarf Mosaic Virus:</b>	5
<b>Head Smut:</b>	5
<b>Downy Mildew:</b>	5
<b>Fusarium:</b>	5

## PLANT CHARACTERISTICS

<b>Relative Maturity:</b>	Medium-Early	<b>Food Grade:</b>	No
<b>Days to Mid-Bloom:</b>	62-66	<b>Plant Height:</b>	52-58
<b>Days to Maturity:</b>	100-105	<b>Head type:</b>	Semi-open
<b>Grain Color:</b>	Red	<b>Head Exertion:</b>	5
<b>Plant Color:</b>	Purple	<b>Seed Treatment:</b>	Untreated

Plant characteristics, agronomic info, and disease tolerances: 5=best, 1 = poorest

## PLANTING RATE & YIELD POTENTIAL

<b>Irrigated Bu/Acre Yield Potential (Optimal Conditions):</b>	150-170
<b>Approximate Seeds / Lb:</b>	15,000
<b>Non-Irrigated Planting Rate (Seeds / Acre):</b>	25,000-45,000
<b>Irrigated (8+ in. / season) Planting Rate (Seeds / Acre):</b>	60,000-80,000

*The Information provided, ratings, and potential yield is not a guarantee of results. Suggested planting rates are guidelines, and local conditions and best practices should be considered when determining your rate.*
