## KWS RECEPTO

Hybrid Rye PollenPLUS®

Yield Test Weight **Tillering Capacity** Plant Height **Lodging Tolerance** Winter Hardiness Root Development Straw Yield

Fungicide Response	HIGH
Nitrogen Response	HIGH
Cycle Length	MEDIUM

**Fusarium Tolerance** 

**Ergot Tolerance** 

KWS Receptor delivers top-end yield potential with the highest level of ergot protection and excellent disease resistance. It is adaptable across diverse Midwest soils and climates—200+ bu/acre achieved in ideal conditions. Strong winter hardiness and broad agronomic fit make it a high-performing grain option.
